MEMORANDUM FOR:

[REDACTED] Seminar Participants

25X1

I would like to thank you again for the time and effort you put
into making this year's TSD R&D Seminar [REDACTED] the
success that it was. The discussions regarding the operational
pertinence of the various aspects of the proposed TSD [REDACTED]
FY '68 Program were particularly candid and to the point.
They will be of considerable value to me in arriving at a final
form and content for the TSD [REDACTED] FY '68 Program. While
each of you certainly represented your present Division or
Staff positions, you, more importantly, often spoke simply as
experienced Clandestine Services operations officers with no
specific parochial interest.

'As I define for the TSD/[REDACTED] Program Managers the top
priority [REDACTED] efforts for FY '68 and the areas of marginal
pertinence or minimal operational value to the CS as they were
discussed at [REDACTED] I will try to pass these on to you
in abstracted form so that you can see some specific significance
of our [REDACTED] discussions.

Once again, thank you for contributing to our [REDACTED]
Seminar this year.
